Japan QCA Conference

https://japan-qca-conference.github.io/

The Japan QCA Conference will take place at Waseda University on 30 and 31 October. The International QCA Conference has been held annually in Europe since 2013 and is now known as the European QCA Conference (EQCA). It is also held in the United States as the QCA Conference of the Americas (AQCA). The conference provides a platform for refining QCA analyses and advancing the methodology. As QCA applications have expanded beyond political science and sociology to include business, management and other various fields in recent years, there has been a growing need for a forum where researchers from different disciplines can interact. For this Japan QCA Conference, a committee of QCA specialists from different fields has been formed to host the event, the first of its kind in Japan.

We are inviting two leading QCA scholars to the conference. On the first day, Professor Peer Fiss (University of Southern California) will deliver the keynote speech, focusing on QCA as an approach. On the second day, Professor Carsten Schneider (Rector of the Central European University) will give a keynote speech focusing on QCA as a technique.

The keynote speeches and the Pape Development Workshops will be held in person, while the roundtable discussions and Expert Workshops will be held in a hybrid format. Advance registration is required, so please register via the URL below. The dinner reception will be held after the programme concludes on the first day. During the advance registration process, please indicate whether you plan to attend this event.

ジャパン QCA カンファレンス

https://japan-qca-conference.github.io/

10 月 30 日、31 日に早稲田大学にて Japan QCA Conference を開催いたします。QCA Conference は 2013 年にヨーロッパ（European QCA Conference）で始まり、最近ではアメリカ（QCA Conference of the Americas）でも開催されるなど、QCA を用いた分析をブラッシュアップする場として、また手法を発展させる場としての役割を担ってきました。とりわけ、QCA の実践が政治学や社会学のみならず、最近では経営学や他の分野に広がる中で、他分野の研究者が交流する場が必要になっています。今回の Japan QCA Conference では、政治学、社会学、経営学の QCA に関する研究者が運営チームを立ち上げ、日本で初の試みとして、実施するものです。

初日の基調講演には経営学の分野で QCA の実践を牽引し、アメリカの QCA Conference を組織されている Peer Fiss 先生（南カリフォルニア大学）にアプローチとしての QCA についてお話いただきます。二日目の基調講演には政治学者として、また R パッケージ SetMethods を開発してきた Carsten Schneider 先生（中央ヨーロッパ大学学長）にテクニックとしての QCA についてお話いただきます。

基調講演や Paper Development Workshop は対面で実施しますが、ラウンドテーブルや Expert Workshop はハイブリッド形式で実施します。事前登録が必要になりますので、以下の URL からご登録をお願いします。初日のプログラム終了後に懇親会を行います。こちらへのご参加についても、事前登録の際にお知らせいただければ幸いです。
